

## STRUCTURE OF THE DOCTORAL STUDY SUBJECT

Subject	Area (direction) of science, code	Faculty	Department
<b>Problems of Private International Law</b>	Law (S 001)	Law	Private Law
Study method	Number of credits	Study method	Number of credits
Lectures	-	consultations	3
Individual work	9	seminars	-
<b>Subject annotation</b>			
<p>The subject matter of private international law is intended to analyse and assess conflict-of-law issues and to analyse the issues of harmonisation and harmonisation of conflict-of-law rules.</p> <p>Topics analysed: general : the relationship of private international law with other legal systems, trends in the harmonisation and unification of private international law at EU and international level, the concept of a conflict-of-law rule, renvoi, restrictions on the application of conflict-of-law rules, interpretation, lex fori and lex causae, breakdown of legal relationship; 'special conflict of laws rules' means the status of natural and legal persons, contractual and non-contractual obligations, rights in rem, intellectual property rights, family legal relationships, legal relationships in succession.</p> <p>Upon graduation, the doctoral student must have mastered the system of categories of private international law and have knowledge of how the same categories are perceived and interpreted in legal doctrine, the legislative process and jurisprudence. Upon completion of his/her study, the Doctoral student must be able to examine the chosen problem of private international law in the wider context of theoretical problems of law, be able to apply various methods of law research to assess and solve theoretical and practical problems of private international law, and be well aware of the conflict-of-law rules unified by the European Union and the practice of their application.</p>
