

## STRUCTURE OF THE DOCTORAL STUDY SUBJECT

| Title of the subject  | Area of science (branch) code | Faculty       | Department            |
|---|-------------------------------|---------------|-----------------------|
| <b>Problems of the General Part of Criminal Law</b>   | Law (S 001)                   | Law           | Criminal justice      |
| Study method  | Volume of the credits         | Study method  | Volume of the credits |
| lectures  | -                             | consultations | 3                     |
| Individual work   | 9                             | seminars      | -                     |
| Subject annotation  |                               |               |                       |
| <p>The subject of the problems of the General Part of Criminal Law is intended to analyze the problematic aspects of international and European Union criminal legal acts, as well as the norms of the General Part of the criminal laws of Lithuania and other states regulating individual criminal law institutes. This discipline is devoted for the analysis of the general part of criminal law and its scientific problems in order to develop individual doctrines of criminal law, as well as to ensure the correct and appropriate interpretation and application of the provisions of criminal law.</p> <p>Topics analyzed: validity of criminal law, criminal offense, stages and forms of criminal offense, circumstances eliminating criminal liability, punishment, penal and educational measures, exemption from criminal liability and punishment, sentencing, etc.</p> <p>Upon completion of the subject, the doctoral student must have mastered the system of categories of the general part of criminal law and have knowledge of how the same categories are perceived and interpreted in legal doctrine and jurisprudence. Moreover, the doctoral student must be able to analyze the chosen problem of the general part of criminal law in the broader context of theoretical problems of law, be able to apply various methods of legal research to solve theoretical and practical problems of the general part of criminal law.</p> |                               |               |                       |
| Main literature   |                               |               |                       |
